

Private Label Solutions

Environmentally Friendly Private Label Options

The market for environmentally friendly private label bioremediation products is growing!

Industries and individuals are looking for safer, more natural ways to clean up waste, boost agriculture, control odor, manage septic systems and drains, and reduce negative industrial discharge.

The possibilities are numerous:

- Powerful biological laundry detergents
- Industrial cleaners
- Natural odor controls
- Livestock immune boosters
- BOD reducers
- And much, much more!

Whatever the target industry or home sphere, Bionetix® puts nature to work for you and your customers. In fact, many global companies with name recognition already rely on Bionetix® for environmentally friendly private label solutions.

Natural Cleaning Solutions

Bionetix® produces biological waste treatment and cleaning products that are used in thousands of field applications worldwide.

Since 1996, Bionetix® has supplied natural biological products to the petroleum, food and agriculture, and hazardous waste industries to degrade target substances in waste systems.

Bionetix® relies on bacterial supplementation through the application of biochemical cleansing products to effect the bioaugmentation and bioremediation of waste systems. Our products are used in countless applications globally.

Custom Solutions

Bionetix® offers tailor-made solutions for your private labeling needs. Multiple mix and match options are available to make sure you get just the right product for your budget plan and for the needs of your target retail or industrial customers. Bionetix® can also supply specialized free enzymes for products if needed, along with the expert understanding of how to stabilize them.

The Process:

Product Types

- Cleaning
- Septic maintenance
- Drain maintenance
- Odor control
- Agriculture enhancement
- Waste treatment

Delivery Systems

- Liquid
- Powder
- Tablets
- Blocks
- Aerosols

Bacteria Strains

- Arthrobacter globiformis
- Bacillus amyloliquefaciens
- Bacillus licheniformis
- Bacillus megaterium
- Bacillus pumilus
- Bacillus subtilis
- Pseudomonas fluorescens
- Pseudomonas putida
- Trichoderma harzianum
- And others...

Bacteria Counts

- Liquids up to: 50 billion CFU/g
- Powders up to: 100 billion CFU/g
- Tablets up to: 20 billion CFU/g
- Blocks up to: 5 billion CFU/g

Harnessing the Power of Nature

Bionetix® biological digestants are composed of 100% naturally occurring, non-pathogenic microorganisms that have been specifically selected for their abilities to degrade target substances.

Bionetix® formulations contain specific, all-natural microorganisms to break down organic pollutants – without the use of chemicals and further damage to the environment. Bionetix® bacteria are safe.

None of the organisms found in our products are genetically engineered or pathogenic for animals, plants, or humans.
