

ECO-TRAP™ P

GREASE TRAP TREATMENT POWDER

FEATURES AND BENEFITS

- Reduces oil and fat accumulation
- Prevents emergency blockages
- Reduces scum buildups
- Improves pipe drainage
- Reduces BOD
- Reduces bad odors

PRODUCT DESCRIPTION

ECO-TRAP™ P (powder) is a grease trap treatment containing specialty additives that loosen and liquefy heavy grease deposits, thereby speeding up their degradation. ECO-TRAP™ P reduces oil and fat accumulation, prevents emergency blockages, and reduces BOD and bad odors.

ECO-TRAP™ P can be applied directly to the grease trap or added through kitchen sinks and floor drains. It is most effective when applied at the end of the day, giving bacteria more time to work.

TYPICAL APPLICATIONS

- Removal of grease deposits and prevention of scum formation in holding tanks, sewers, drains, and aeration basins
- Acceleration of the biological degradation of wastewaters containing high levels of fat, oils, and greases (FOG)
- Reduction in the unpleasant odors associated with treatment plants handling fatty wastes

SPECIFICATIONS

Description	Tan color, free-flowing granular powder
Stability	Up to 24 months
pH (1%)	6.0-8.5
Nutrient Content	Biological nutrients and stimulants
Bacteria Count	500 million CFU/g

APPLICATION INSTRUCTIONS

Grease Trap Size	Initial Dosage	Maintenance Dosage
Up to 2,000 L (500 gallons)	2 pouches (28 g)	1 pouch (28 g) per month
2,000–5,000 L (500-1,300 gallons)	4 pouches (28 g) or 2 pouches (56 g)	2 pouches (28 g) or 1 pouch (56 g) per month

Add ECO-TRAP™ P to the grease trap. The water-soluble pouch may be directly inserted into the grease trap or previously dissolved in water before applying the solution to the grease trap. ECO-TRAP™ P is more effective when it is applied at the

ECO-TRAP™ P

end of daily restaurant activities because the bacteria in ECO-TRAP™ P will have more time to biodegrade the oils, grease, and other organic materials that accumulate in the trap.

For optimal performance, cleaning out the grease trap before the initial dosage of ECO-TRAP™ P is recommended. Results will be obtained within four to eight weeks of the initial dosage.

For a trap of more than 5,000 L (1,300 gallons), please consult your Bionetix® representative.

PACKAGING & STORAGE

Available in bulk, water-soluble pouches (200 x 56 g, 400 x 28 g, 40 x 250 g), and custom packaging.

Store in a cool, dry location. Packaging must be kept intact, dry, and away from sunlight. Please follow the recommendations and use the product before the best before date. Contact Bionetix® with questions. Avoid inhalation and eye contact. Avoid excessive skin contact.
