

# MICRO 14™

## MICRONUTRIENT BLEND FOR WASTEWATER AND SOIL

### PRODUCT DESCRIPTION

MICRO 14™ is a special blend of micronutrients providing various sources of essential minerals and microbial growth elements. This blend is beneficial in stimulating activity in nutrient deficient wastewaters and soils. The formulation will enhance the speed of microbial growth and metabolism, leading to accelerated degradation of organic materials for superior bioremediation.

Incorporating microelements in wastewater treatment processes enhances the efficiency and stability of microbial communities responsible for degrading pollutants. By optimizing microbial activity and supporting critical biochemical reactions, microelements contribute to the overall effectiveness of wastewater treatment systems, leading to better water quality and more efficient pollutant removal.

### PACKAGING AND STORAGE

Available in bulk, water-soluble pouches (200 x 56 g, 400 x 28 g, 40 x 250 g), and custom packaging.

Store in a cool, dry location. Packaging must be kept intact, dry, and away from sunlight. Please follow the recommendations and use the product before the best before date. Contact Bionetix® with questions. Avoid inhalation and eye contact. Avoid excessive skin contact.

### FEATURES AND BENEFITS

- Enhances microbial and enzyme activity
- Helps optimize biochemical reactions
- Improves sludge characteristics
- Enhances biogas production in anaerobic digestion
- Reduces odors

### TYPICAL APPLICATIONS

- Wastewater and waste treatment
- Anaerobic digestion
- Sludge treatment
- Oil spill cleanup
- Soil reclamation
- Groundwater treatment
- Odor controls in landfills

### SPECIFICATIONS

Description	Beige powder
Stability	2 years
pH (1% Solution)	5.0-7.0

### APPLICATION INSTRUCTIONS

Dosage rate will vary with different types of soil and wastewater systems. Please contact your local Bionetix® representative for further information.
