

# ORGANIC PLUS™

## BIOLOGICAL SOIL AMENDMENT

### PRODUCT DESCRIPTION

ORGANIC PLUS™ is a highly effective nature-based bio-stimulant for soil and plants. It contains high concentrations of humic acids, marine plants, and micronutrients. It helps to increase crop yield by amending the soil with nutrients and biostimulants that enhance the natural fertility of the soil.

### PACKAGING AND STORAGE

Available in 4 x 4 L, 21 kg, 209 kg, and custom packaging.

Store in a cool, dry location. Packaging must be kept intact, dry, and away from sunlight. Please follow the recommendations and use the product before the best before date. Contact Bionetix® with questions. Avoid inhalation and eye contact. Avoid excessive skin contact.

### FEATURES AND BENEFITS

- Fertilizes soil
- Enhances seed germination
- Promotes plant health
- Chelates and colloidalizes fertilizers (to promote better nutrient uptake)
- Enhances root formation
- Enhances bacterial activity
- Improves water availability

### TYPICAL APPLICATIONS

- Agricultural crops
- Hydroponic plants
- Seed soak or dip

### SPECIFICATIONS

Description	Liquid
pH	3.5-4.5
Nutrient Content	Biological nutrients and stimulants

### GUARANTEED MINIMUM ANALYSIS

Name	Concentration, mg/L
Total Nitrogen (N)	21,000
Phosphorus (P <sub>2</sub> O <sub>5</sub> )	500
Potassium (K <sub>2</sub> O)	4,000
Calcium (Ca)	450
Magnesium (Mg)	250
Sulfur (S <sub>2</sub> )	0.21
Iron (Fe)	10,000

# ORGANIC PLUS™

Name	Concentration, mg/L
Boron (B)	12
Manganese (Mn)	7,000

## APPLICATION INSTRUCTIONS

Recommended: Dilute ORGANIC PLUS™ to obtain a concentration of 85-100 ppm (higher concentrations should be applied with caution).

**Mixing Directions** — Fill tank with half the recommended water, then add ORGANIC PLUS™ and agitate. Continue adding remaining water. When water has been added, thoroughly agitate mixture before application. Continued agitation is not necessary. Product may be mixed with other products such as nutrients and pesticides; however, it is recommended that the final concentration of 85-100 ppm be maintained.

Solution should be used within 24 hours. After 24 hours, solution may lose some effectiveness.

**Application Directions** — Apply ORGANIC PLUS™ using conventional equipment by spraying, fogging, or drenching to the point of saturation. For spray or fog applications, apply at a rate of at least 10 L/100 m<sup>2</sup>. For drench or root applications, the number of L/m<sup>2</sup> should be increased depending on plant density and soil conditions. Rate should be increased to at least 15 L as plants mature.

ORGANIC PLUS™ can be incorporated into nutrient solutions for hydroponic plants and vegetables and used as a seed soak or dip as well.

Application should be made in the early stages of plant growth and at five-day intervals during growth for healthy plant development. Thorough coverage is necessary. Keep out of reach of children and pets. Use filter to reduce plugging of the nozzles.

Check fertilizer compatibility before large-scale use.

For further information on application, contact your BIONETIX® technical representative.
